

ITSO Symposium
Satellite Developments Shaping Connectivity
An ITSO Perspective

Pre-Event to the 42nd Assembly of Parties (AP-42)
29 September 2026 (14:00 – 17:00)

PROFILE OF THE SPEAKER

MR. NEDAL ALSAMARA

Senior Telecommunications Regulatory and Spectrum Management Executive

Nedal Alsamara is a senior telecommunications regulatory and spectrum management executive with more than two decades of experience in the telecommunications sector. He currently serves as Director of the Radio Spectrum Management Directorate at Jordan's Telecommunications Regulatory Commission (TRC), where he leads strategic initiatives spanning spectrum management, licensing, regulatory policy, and the efficient use of national radio-frequency resources.

Throughout his career, Mr. Alsamara has held a range of senior leadership and technical positions at the TRC, contributing to major national initiatives including 5G spectrum planning and reallocation, telecommunications licensing frameworks, spectrum policy, and regulatory development. He has also represented Jordan in regional and international telecommunications forums and served as Vice Chairman of the Arab Spectrum Management Group.

He holds a Master's and Bachelor's degree in Electronic and Communication Engineering from Jordan University of Science and Technology. His professional expertise encompasses spectrum strategy, telecommunications regulation, licensing, international frequency coordination, emerging wireless technologies, and institutional development.

Al Samarah has represented Jordan's in all international telecommunications events, ITU , ETSI and regional meetings.

He holds the position of vice chairman of AP-41 and vice chairman of the Arab Spectrum Management Group ASMG
